English from foundation to advanced levels: general English and IELTS/TOEIC preparation, in class, online and in hybrid classes.

Assessment
Rating speaking and writing in standardised tests (VSTEP levels 3–5, Cambridge Starters to PET) and writing VSTEP test items.

Curriculum
Building syllabuses and coursebooks for TOEIC and IELTS preparation courses.

EdTech
Built an LMS where students follow their class schedule and complete assigned tasks at home, with an online test builder.

TEACHING APPROACH

1. Teach what actually blocks learners, such as the meaning of question wording that recurs across exams.
2. Practise in the real exam format; parallel test forms of equal difficulty.
3. Original reading and listening texts written for each course.
4. Grammatical accuracy, with Vietnamese explanations where they help.
5. Technology that serves the lesson: LMS homework and hybrid classes.
